- See note 5 for reconciliation to IFRS earnings per share (and for all future references in this report to IFRS/EPRA earnings). Diluted adjusted EPRA earnings per share includes company specific adjustments in the comparative period.
- Adjusted for sales and acquisitions in period.
- See note 6 for reconciliation to IFRS NAV per share (and for all future references in this report to IFRS/EPRA NAV).
- Loan-to-value (LTV) ratio means total borrowings to gross property valuation

## Operational Highlights

- Like-for-like growth in the total portfolio valuation was 3.5% for the six-month period, of which the MLI portfolio was 2.5%.
- Completed 90 new lettings/lease renewals in the MLI portfolio for an average 4.36 years at an average rent which was 19.7% above the passing rent previously payable on those units.
- 52% of net rental income was derived from the MLI portfolio compared to 32% in the same period last year.
- Eight MLI estates acquired for an aggregate purchase price of £23.9 million.
- Strategic decision taken to accelerate the sale of German assets to capitalise on strong valuations and an active German investment market.
- Steady progress on developing our MLI operating platform.

## Financial Highlights

- Declaration of an interim dividend on 21 November 2019 of 3.375 pence per share for the six months ended 30 September 2019 (2018: 3.375 pence), covered by earnings and payable on 14 February 2020. A scrip alternative will be offered, which the directors intend to match through the buyback of shares in the market.
- Diluted IFRS net asset value per share was £1.39 (31 March 2019: £1.36). Diluted EPRA net asset value per share of £1.44 (31 March 2019: £1.41).
- Diluted IFRS EPS was 4.59 pence (2018: 4.63 pence). Diluted adjusted EPRA EPS of 3.41 pence (2018: 5.28 pence) for the period ended 30 September 2019. The variance in EPRA EPS was driven by a £5.0 million reduction in net management fee income as the Group has exited its management activities. The property-related diluted adjusted EPRA EPS was 3.25 pence (2018: 3.40 pence).

### FX rates in period

Average foreign exchange rates in the period: £1.00:€1.1263; £1.00:CHF1.2517 (2018: £1.00:€1.1308; £1.00:CHF1.3111)  
 Period end foreign exchange rates: £1.00:€1.1265; £1.00:CHF1.2236 (31 March 2019: £1.00:€1.1617; £1.00:CHF1.2970)  
 'EPRA' means European Public Real Estate Association. 'EPS' means earnings per share. 'NAV' means net asset value.

# Operating and financial review

## Stenprop is pleased to report its consolidated interim financial statements for the six months ended 30 September 2019.

### Transition plan update

Stenprop continues its transition into a focused UK MLI company, with the aim of becoming the UK's leading MLI business. Stenprop has set out its plan which involves transitioning the portfolio to at least 60% MLI and reducing overall leverage to a loan-to-value ratio of no more than 40% by March 2020, with the plan to transition to 100% MLI over a 12 to 24 month period thereafter.

No new acquisitions were made in the first quarter of the year. During the second quarter Stenprop acquired eight MLI estates for an aggregate price of £23.9 million. Ordinarily we would have liked to have acquired approximately £50 million of MLI estates in the period, with a further £50 million in the following six months, but were not willing to compromise our purchase criteria to achieve this. As a result we held more cash in the first quarter which resulted in a small cash drag on earnings compared to the cash having been invested in MLI assets.

As at 30 September 2019, MLI assets comprised 44.6% of Stenprop's total portfolio (up from 42.7% at 31 March 2019 and 27.0% at 30 September 2018) and overall loan to value was 41.3% (31 March 2019: 44.2%).

### MLI portfolio performance

The MLI occupational market remains strong with demand outstripping supply. Over the six months to 30 September 2019 we completed the following:

- 55 new lettings and 35 lease renewals generating £1.9m of contractual income over 312,628 sq ft. The average rental uplift on the previous passing rent was 22% on new lettings and 17% on renewals. The average rental incentive given across all new lettings and renewals was 2.1 months on a 4.36 year average term.
- The average rent of the MLI portfolio is £5.14/sq ft, reflecting a 1.6% increase on the passing rent of £5.06/sq ft as at 31 March 2019. The current passing rent is 7.8% below the average estimated rental value of the portfolio of £5.57/sq ft.
- The vacancy rate stands at 6.1% (excluding the space currently under refurbishment at Coningsby Park, Peterborough), down from 6.2% as at 31 March 2019.
- The most significant transactions completed were a letting of 27,000 sq ft at Compass Industrial Park in Liverpool on a five-year term with three months rent free and a letting of 21,000 sq ft at Eurolink 31 in Wakefield for a ten-year term with three months rent free.

As stated above, acquisitions over the period have been lower than projected due to a significant fall in investment volumes in the UK market. CBRE estimate that MLI transactions in the quarter ending September 2019 were down 42% year on year, with industrial portfolio transactions down 51% over the same period. Pricing remains steady as a result of the limited supply on the market, with none of the distress visible amongst sellers that has been seen in the UK retail and shopping centre markets. We remain disciplined in our investment criteria of only

acquiring purpose-built MLI estates in densely populated areas which are accretive to returns. While we continue to see value where sellers are keen to dispose of assets, we do not foresee a significant change in investment market conditions this side of the General Election.

The eight MLI estates acquired in the period were purchased for an aggregate purchase price of £23.9 million, reflecting an average capital value of £75/sq ft. The eight estates comprise 317,923 sq ft with an average occupancy rate of 92% and 89 tenants and provide Stenprop with an additional £1.6 million of annual rental income, averaging £5.54/sq ft. We also acquired the freehold interest in a 3,000 sq ft unit on our existing Holbrook Enterprise Park in Sheffield, further consolidating our ownership of the estate.

### Industrials Operating Platform

We continue to make steady progress in the development of our Industrials operating platform. The overarching aim is to build an MLI operating platform in the market which delivers scale efficiencies and the ability to offer multiple products and services to our customers, beyond simply space to rent. This will be achieved through a combination of cutting-edge technology, on-the-ground expertise, class leading customer service and efficient process management techniques. We believe Stenprop, with its internalised management platform and permanent capital structure, is uniquely placed to invest in such a platform to deliver significant medium to long-term value to investors.

Over the last six months we have made significant progress in several areas towards this goal:

1. **Website** – We have made further enhancements to Industrials.co.uk, our customer-facing website. Prospective customers can now search online for available units, view high quality detailed information, photographs and plans on our properties, find helpful tips on leasing industrial premises and get in touch with us via email, phone or live chat. The website is currently generating over 150,000 page-views per annum for our vacant units. Combined with other digital marketing strategies and on-site advertising, this has resulted in over 200 direct leasing enquiries per month. These are enquiries that are in addition to those generated through the more traditional means by our letting agency partners.
2. **Enquiries** – We have also set up a call centre function to manage all enquiries (from new prospects and from existing customers) either through email, online chat or telephone. In addition to handling c. 1,500 leasing enquiries per annum, our call centre function is also handling a further c. 2,500 management calls per annum from existing customers, ensuring that every caller quickly gets through to the right person to help them. This initiative is designed to both improve letting conversion rates and customer satisfaction, and we are closely monitoring the effect of this with surveys and analytics.

3. **Customer Service** – We have recruited two Customer Engagement Managers (CEMs) to cover the North-West and Midlands regions. The CEM's role is to engage directly with our customers with a view to increasing customer satisfaction (and hence the propensity to renew at expiry), and also to conduct viewings with prospective leads which we are generating as well as new lease or lease renewal negotiations. Early successes have convinced us to continue the roll-out across the UK so that all of our properties across the country are covered by a local presence. We are currently recruiting two further CEMs in Scotland and the North-East, with a view to rolling out the position across the UK by early 2020.
4. **Smart lease** – We have extensively rolled out our Smart Lease across all assets in England and Wales. This three-page lease, which is offered on small units in conjunction with simple, transparent pricing, has been used on 45% of the applicable lettings in England and Wales over the last three months. In addition to reducing the time taken to agree lease terms and move to completion, all Smart leases are completed in-house, significantly reducing recurrent legal expenditure and time spent in negotiations.
5. **PropTech** – We continue to use technology to manage our letting process, and specifically to help us digitise leasing activity across all our agency partners around the UK. This is critical as it enables us to analyse trends and develop insight into what marketing methods and techniques will generate the highest quality and volume of leads in different regions, unit sizes and customer types. By developing deep expertise in these areas, we will be able to optimise our expenditure to deliver the most efficient leasing process for UK MLI.
6. **Operating system** – We have embarked upon a significant upgrade to our underlying finance, operating and customer relationship management systems. Delivery is scheduled in several phases during 2020, with the system designed to provide the foundations and flexibility to deliver our serviced industrial concept across our platform. As part of the upgrade we have conducted an extensive and detailed review of all our work and processes, resulting in a new Target Operating Model for Stenprop which will be implemented and enforced by the new system.

Having laid the foundations the intention is to continue to develop and enhance the Industrials platform as we transition into a focused MLI operating company.

### The non-MLI portfolio

Over the period we completed 13 lettings totalling 51,857 sq ft, which will provide total annual rent of £0.8 million. The average term on the new lettings was 6.4 years and the vacancy rate stands at 1.0%.

We also sold two small retail properties in the UK at Walsall and Hemel Hempstead for a combined sale price of £3.6 million and broadly in line with the combined valuation at 31 March 2019 of £3.7 million.

### Strategic acceleration of sales

Up to now, Stenprop has endeavoured to match sales of non-MLI assets as closely as possible with purchases of MLI assets, with the intention of minimising the holding of uninvested cash and associated reduced returns. This strategy proved effective up to the end of March 2019, as there was a reasonably steady pipeline of suitable MLI purchase opportunities. Since then, the volume of transaction opportunities in the UK has significantly decreased as sellers choose to adopt a 'wait and see' approach to both buying and selling.

We have sold most of our UK non-MLI assets and are left primarily with our German assets to sell. Given that transactional volumes and valuations in Germany are strong, we believe it is a good time to be disposing of our remaining German assets. Consequently, the board of Stenprop has taken a strategic decision to accelerate the sale of all of its German assets and not to wait until the sale proceeds can be matched with suitable UK MLI purchases. This may mean that Stenprop could hold large cash balances while waiting for opportunities to acquire suitable MLI assets, which would result in a temporary period of reduced earnings as a result of holding uninvested cash. However, it will give Stenprop significant purchasing power to buy when suitable MLI opportunities arise.

In line with this strategy the Bleichenhof property in Hamburg is at an advanced stage in a sales process. Furthermore, it is intended to bring to market in January our three Berlin retail centres and our portfolio of five retail warehouses. The combined sterling valuation of all of these properties at 30 September 2019 was £229.6 million.

Following the sale of all of these properties, and in the unlikely event of no further MLI acquisitions before then, our portfolio will comprise approximately 55.2% MLI, 19.6% cash and 25.2% non-MLI property still to be sold.

# Operating and financial review

## Transition of shareholder base

Over the 15 months since Stenprop listed on the London Stock Exchange we have undertaken a large number of investor presentations to introduce Stenprop to UK-based fund managers. This has resulted in the purchase of approximately 45 million shares by those in the UK seeking to gain exposure to our transition into a focused MLI business. This demand from UK investors coincided with a high level of sales from holders on the Johannesburg Stock Exchange (JSE) and has resulted in the proportion of shares held on the JSE falling from 32.8% to 16.7% since June 2018. We understand that the selling on the JSE was motivated primarily by uncertainty over UK investment as a result of Brexit as well as particular investment issues impacting the general listed property sector in South Africa.

We believe that as we accelerate our progress towards becoming a 100% focused UK MLI business, we will appeal to a greater range of investors wishing to invest in the MLI asset class.

## Financial Review

### Earnings

For the six months to 30 September 2019, basic earnings attributable to ordinary shareholders were £13.2 million (2018: £13.2 million). This equates to a diluted IFRS EPS of 4.59 pence (2018: 4.63 pence).

Net rental income was £15.8 million (2018: £16.0 million), of which £8.2 million, being 52% of the total, was derived from the growing MLI portfolio. MLI net rental income in the comparative period contributed £5.1 million representing 32% of net rental income.

Net management fee income totalled £0.4 million for the period (2018: £5.4 million). The prior period net fee income of £5.4 million included performance and management fees of £4.0 million relating to a managed property in Frankfurt which was sold in August 2018. As previously reported, Stenprop has withdrawn from its historic fund management activities and future management fee income will be insignificant.

Operating expenses were £4.6 million (2018: £5.3 million). The prior period included approximately £0.9 million of one-off costs associated with REIT conversion in May 2018 and listing on the LSE the following month.

In accordance with reporting standards widely adopted across the real estate industry in Europe, the directors feel it is appropriate and useful, in addition to providing the IFRS disclosed earnings, to also disclose EPRA<sup>1</sup> earnings. Adjusted EPRA earnings attributable to shareholders were £9.8 million (2018: £15.1 million). The variance to the comparative period was driven by the £5.0 million reduction in non-recurring management fee income. The diluted adjusted EPRA EPS was 3.41 pence (2018: 5.28 pence).

The diluted adjusted EPRA EPS attributable to the property rental business amounted to 3.25 pence per share (2018: 3.40 pence), with the remaining amount of 0.16 pence per share being attributable to the net management fee income (£0.4 million shown on the condensed consolidated income statement, divided by the average number of shares in the period as per note 5).

### Dividends

On 21 November 2019, the directors declared an interim dividend of 3.375 pence per share (2018: 3.375 pence per share). The directors intend to offer shareholders the option to receive all or part of their dividend entitlement by way of a scrip issue of Stenprop treasury shares or in cash. An announcement containing details of the dividend, the timetable and the scrip dividend terms is anticipated to be made on 19 December 2019. It is expected that shares will commence trading ex-dividend on 22 January 2020 on the JSE and on 23 January 2020 on the LSE. The record date for the dividend is expected to be 24 January 2020 and the dividend payment date 14 February 2020.

In respect of this dividend, given the Company's share price which stands at a discount relative to net asset value, the directors intend to match any scrip scheme take up through the buyback of shares to mitigate the dilutive effect that would otherwise occur from the issuance of Stenprop treasury shares.

As one of the conditions of being a UK REIT, Stenprop must distribute 90% of its aggregate UK property rental business profits as calculated for tax purposes arising in the accounting year by way of dividend within 12 months of the accounting year end. There is no requirement to distribute non-UK property rental business profits, profits from third party management fees or capital gains. Notwithstanding this, Stenprop intends to distribute at least 90% of its UK and non-UK property-related EPRA earnings. In respect of the interim dividend, Stenprop has taken the decision to distribute non-property-related earnings to maintain the half year dividend at 3.375 pence per share, of which 3.25 pence per share related to property related earnings. The dividend remains fully covered by earnings.

### Cash balances

At the start of the financial year, Stenprop held unrestricted cash of £50.5 million, of which approximately £35 million was available for MLI acquisitions. Investment market conditions and our strict purchase criteria resulted in £23.9 million of acquisitions completing towards the end of the period. Holding the cash surplus for longer than anticipated inevitably had an impact on earnings and the challenge of minimising this 'cash drag' remains a focus for management.

<sup>1</sup> The European Public Real Estate Association ("EPRA") issued Best Practices Policy Recommendations in November 2016, which provide guidelines for performance measures relevant to real estate companies. Their recommended reporting standards are widely applied across this market, aiming to bring consistency and transparency to the sector. The EPRA earnings measure is intended to show the level of recurring earnings from core operational activities with the purpose of highlighting the Group's underlying operating results from its property rental business and an indication of the extent to which current dividend payments are supported by earnings. The measure excludes unrealised changes in the value of investment properties, gains or losses on the disposal of properties and other items that do not provide an accurate picture of the Group's underlying operational performance. The measure is considered to accurately capture the long-term strategy of the Group, and is an indication of the sustainability of dividend payments. See Note 5 for reconciliation to IFRS EPS.

## Net asset value

The IFRS basic and diluted net asset value per share at 30 September 2019 were £1.41 and £1.39 respectively (31 March 2019: £1.38 and £1.36 respectively).

With regard to the disclosure of EPRA earnings, the directors feel that it is appropriate and useful, in addition to IFRS NAV, to also disclose EPRA NAV<sup>2</sup>. The diluted EPRA NAV per share at 30 September 2019 was £1.44. This represented a 2.1% increase on the diluted EPRA NAV per share of £1.41 at 31 March 2019. This increase was largely driven by an increase in the like-for-like portfolio valuation and by weaker sterling exchange rates at the period end (£1.00:€1.1265) when compared with the rate at 31 March 2019 (£1.00:€1.1617).

## Portfolio valuation

Including the Group's share of joint ventures, its investment properties were valued at £654.5 million at 30 September 2019 (31 March 2019: £612.9 million), of which £152.8 million were classified as assets held for sale (31 March 2019: £16.2 million). As at the period end, assets held for sale consisted of our Hamburg property, known as Bleichenhof, the remaining Swiss property in Lugano and the Davemount property at Grimsby. On a like-for-like basis, excluding the impact of additions and disposals in the period, the valuation of the portfolio since year end increased by 3.5%, of which 1.4% resulted from currency movements. The German and Swiss properties have been translated to GBP at exchange rates of £1.00:€1.1265 and £1.00:CHF1.2236 respectively. This compares with exchange rates of £1.00:€1.1617 and £1.00:CHF1.2970 at 31 March 2019.

<sup>2</sup> The objective of the EPRA NAV measure is to highlight the fair value of net assets on an ongoing, long-term basis. EPRA NAV is used as a reporting measure to better reflect underlying net asset value attributable to shareholders. Assets and liabilities that are not expected to crystallise in normal circumstances such as the fair value of financial derivatives and deferred taxes on property valuation surpluses are therefore excluded. The EPRA measure thus takes into account the fair value of assets and liabilities as at the balance sheet date, other than fair value adjustments to financial instruments, deferred tax and goodwill. As the Group has adopted fair value accounting for investment property per IAS 40, adjustments to reflect the EPRA NAV include only those relating to the revaluation of financial instruments and deferred tax. See note 6 for reconciliation to IFRS NAV.

## United Kingdom

The UK portfolio was independently valued at £372.0 million. On a like-for-like basis, after excluding the sales of the Walsall and Hemel Hempstead properties and the eight MLI estates acquired in the six-month period to 30 September 2019, the valuation of the UK portfolio increased by £6.7 million, or 2.0%, over the valuation at 31 March 2019. The MLI portfolio accounted for £6.5 million of this variance, of which £3.8 million related to Coningsby Park in Peterborough where the refurbishment is targeted for completion at the end of November. The non-MLI portfolio valuation remained broadly static with the valuation of the Trafalgar Court property in Guernsey unchanged at £57.8 million.

## Germany

The German portfolio (excluding joint ventures) was independently valued at €258.6 million. There were no sales in the period, and this represented a like-for-like increase of 2.4% on the year-end valuation of €252.6 million. The increase

of €6.0 million was driven by a €4.3 million uplift at Stenprop's Bleichenhof property in central Hamburg which is now valued at €151.7 million. If the sale were to conclude at this level, deferred tax of approximately €7.0 million would become payable. Elsewhere, a combined increase of €1.9 million was seen at our three Berlin retail centres.

## Switzerland

The valuation of the final Swiss property, Lugano, was determined by the directors at 30 September 2019, and held at CHF21.0 million.

## Joint ventures

The care homes portfolio in Germany was independently valued at €40.4 million, an increase of 2.5% on the 31 March 2019 valuation of €39.4 million.

# Operating and financial review

## Debt

During the six-month period, no new debt was drawn and the two small UK disposals (Walsall and Hemel Hempstead) resulted in a reduction of associated debt of £4.7 million.

As previously mentioned, the Group is targeting to reduce its level of total borrowings to approximately 40% of its gross asset value by 31 March 2020. Thereafter, the directors will employ a level of borrowing that they consider to be prudent for the asset class, taking into account prevailing market conditions.

The value of the property portfolio as at 30 September 2019, including the Group's share of joint venture properties and assets held for sale, was £654.5 million. Senior bank debt at the same date was £270.2 million, resulting in an average loan-to-value ratio of 41.3% (31 March 2019: 44.2%). Cash reserves at 30 September 2019 totalled £24.9 million, including restricted cash of £4.9 million. When unrestricted cash is added to this measure lowering net debt, our overall LTV was 38.2%.

The rolling credit facility provided by Investec Bank Plc to bridge the potential funding gap between property acquisitions and sales was refinanced in September 2019. The new £30 million facility is for an 18-month period and matures in April 2021. The facility was not utilised in the six-month period and was undrawn as at 30 September 2019. There are no non utilisation fees payable on the facility.

The weighted average debt maturity stood at 2.5 years at 30 September 2019 compared with 3.0 years at 31 March 2019. Excluding the Swiss property at Lugano which is designated as held for sale, annual amortisation payments are £0.7 million (31 March 2019: £0.7 million) and the all-in contracted weighted average cost of debt was 2.43% at the period end, compared with 2.46% at 31 March 2019.

The Group mitigates interest rate risk through the use of derivative instruments such as interest rate swaps or interest rate caps in respect of at least 75% of its interest rate exposure. The Group utilises derivative instruments solely for the purposes of efficient portfolio management.

## Net management fee income from assets managed for third parties

Stenprop has actively withdrawn from involvement in its historic fund management arm and, accordingly, management fees in the half year to 30 September 2019 totalled £0.4 million against £5.4 million in the prior period. Significant one-off performance and exit fees were earned in the prior period from the realisation of third party owned assets and as a result of crystallised returns exceeding performance hurdles. As previously reported, future fee income is expected to decline to insignificant levels.

## Foreign exchange

At 30 September 2019, approximately 34.7% of Stenprop's net asset value and 32.3% of its net rental income are denominated in euros. Consequently the GBP:EUR exchange rate has a material impact on reported GBP earnings and net asset values. At the start of April 2019, the GBP:EUR rate was £1.00:€1.1617 and the euro strengthened over the six-month period by 3.0% to £1.00:€1.1265 as at 30 September 2019.

Stenprop matches the currency of borrowings to the underlying asset. Where the timing and amount of a liability has been determined, and where it will be met from the proceeds of a

sale which is also known in terms of timing and amount, the currency risk is managed through hedging instruments.

Stenprop's diversification across the UK, Germany and Switzerland (until the final Swiss property is sold) continues to provide a natural spread of currencies and it remains our policy not to hedge this natural spread, thereby maintaining a multi-currency exposure.

## Confirmation of Chief Financial Officer

On 20 November 2019 the Board confirmed the appointment of James Beaumont as Chief Financial Officer.

## Subsequent events

On 14 October 2019, Stenprop acquired an industrial estate known as Western Campus in Glasgow for £4.6 million.

On 21 November 2019, the directors declared an interim dividend of 3.375 pence per share (2018: 3.375 pence per share). The directors intend to offer shareholders the option to receive all or part of their dividend entitlement by way of a scrip issue of Stenprop treasury shares or in cash. An announcement containing details of the dividend, the timetable and the scrip dividend terms is anticipated to be made on 19 December 2019. It is expected that shares will commence trading ex-dividend on 22 January 2020 on the JSE and on 23 January 2020 on the LSE. The record date for the dividend is expected to be 24 January 2020 and the dividend payment date 14 February 2020.

## Prospects

Our conviction regarding the growth prospects of the UK MLI asset class grows stronger as we gain more exposure to the sector. The increasing occupational demand, coupled with the restricted supply, continues to produce significant rental growth each time we renew or re-let any MLI units. This is generally the case across the whole MLI portfolio. We see no signs of this slowing in the near future as new types of occupiers, which have never previously occupied MLI units, enabled by technology and communication advancements, compete with traditional occupiers for MLI space. Supply continues to be constrained as it is still uneconomic to build new MLI estates at current rental levels. This is borne out by the growth in values shown by the MLI portfolio driven by growth in rents rather than changes in yields.

We have also committed to building out a market leading, technology-enabled management platform for the MLI asset class. We believe this sector is ripe for a platform approach in the same way as student accommodation, self-storage, hotels and serviced offices have evolved technology-enabled operating and marketing platforms to generate margin efficiencies and the ability to offer a wider range of services and products to their tenant base.

In the period under review, Stenprop has delivered solid results and is progressing well with its goals to transition the portfolio to at least 60% MLI and to reduce its overall loan-to-value ratio to no more than 40% by March 2020.

We are committed to our accelerated sales strategy outlined in this report and focused on continuing our MLI acquisitions.

Stenprop's objective remains to deliver sustainable and growing income to its shareholders over the medium to long term and we remain confident that the MLI asset class will deliver this.

# Statement of Directors' responsibilities

## Statement of principal risks and uncertainties

Stenprop is a listed property investment company with a diversified portfolio of commercial property currently located in the United Kingdom, Germany and with one property in Switzerland. Its principal risks are therefore related to the commercial property market in general and its investment properties. Other risks faced by the Group include strategy and performance, financial, operational and regulatory risks.

The Audit and Risk Committee assists the Board with its responsibilities for managing risk. The principal risks currently facing the business are described in more detail under the heading 'Risk Management' within the Company's Annual Report for the year ended 31 March 2019. The Group's principal risks and uncertainties have not changed materially since the date of the Annual Report.

## Statement of going concern

Having reviewed the Group's current financial position and cash flow forecasts, the directors are satisfied that the Company and the Group have access to adequate resources to meet its obligations as they fall due for a period of at least twelve months from the date of these interim financial statements. Therefore, they continue to adopt the going concern basis in preparing the financial statements.

## Statement of Directors' responsibilities in respect of the interim report

The directors confirm that to the best of their knowledge:

- i. the condensed set of consolidated financial statements has been prepared in accordance with IAS 34 'Interim Financial Reporting';
- ii. the Operating and Financial Review together with the Statement of Principal Risks and Uncertainties above include a fair review of the information required by the Disclosure Guidance and Transparency Rules ('DTR') 4.2.7R, being an indication of important events that have occurred during the first six months of the financial year, a description of principal risks and uncertainties for the remaining six months of the year, and their impact on the condensed set of consolidated interim financial statements; and
- iii. the Operating and Financial Review together with the condensed set of consolidated interim financial statements include a fair review of the information required by DTR 4.2.8R, being related party transactions that have taken place in the first six months of the current financial year and that have materially affected the financial position or performance of the Group during that period, and any changes in the related party transactions described in the last Annual Report that could do so.

The financial statements are published on the Company's website, [www.stenprop.com](http://www.stenprop.com). A list of the current directors of Stenprop can be found on the Company's website. Legislation in Guernsey governing the preparation and dissemination of the interim financial statements may differ from legislation in other jurisdictions.

Approved by the Board on 21 November 2019 and signed on its behalf:

Chief Executive Officer

**James Beaumont**  
Chief Financial Officer

# Independent review report to Stenprop Limited

We have been engaged by the Company to review the condensed set of financial statements in the interim report for the six months ended 30 September 2019 which comprises the condensed consolidated statement of comprehensive income, the condensed consolidated statement of financial position, the condensed consolidated statement of changes in equity, the condensed consolidated cash flow statement and related notes 1 to 16. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with International Standard on Review Engagements (UK and Ireland) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Financial Reporting Council. Our work has been undertaken so that we might state to the Company those matters we are required to state to it in an independent review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our review work, for this report, or for the conclusions we have formed.

## Directors' responsibilities

The interim report is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Disclosure Guidance and Transparency Rules of the United Kingdom's Financial Conduct Authority and the Listings Requirements of the Johannesburg Stock Exchange.

As disclosed in note 1, the annual financial statements of the Group are prepared in accordance with IFRSs as adopted by the European Union. The condensed set of financial statements included in this interim report have been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting', as issued by the International Accounting Standards Board.

## Our responsibility

Our responsibility is to express to the Company a conclusion on the condensed set of financial statements in the interim report based on our review.

## Scope of review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Financial Reporting Council for use in the United Kingdom. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the interim report for the six months ended 30 September 2019 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure Guidance and Transparency Rules of the United Kingdom's Financial Conduct Authority.

# JSE accredited independent auditor's review report on interim financial statements

## to the shareholders of Stenprop Limited

We have reviewed the condensed consolidated financial statements of Stenprop Limited, contained in the accompanying interim report, which comprise the condensed consolidated statement of financial position as at 30 September 2019 and the condensed consolidated statement of comprehensive income, changes in equity and cash flows for the six-months period then ended, and selected explanatory notes.

### Directors' Responsibility for the Interim Financial Statements

The directors are responsible for the preparation and presentation of these interim financial statements in accordance with International Financial Reporting Standard (IAS) 34, *Interim Financial Reporting*, and the SAICA Financial Reporting Guides, as issued by the Accounting Practices Committee and for such internal control as the directors determine is necessary to enable the preparation of interim financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express a conclusion on these interim financial statements. We conducted our review in accordance with International Standard on Review Engagements (ISRE) 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. ISRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the interim financial statements are not prepared in all material respects in accordance with the applicable financial reporting framework. This standard also requires us to comply with relevant ethical requirements.

A review of interim financial statements in accordance with ISRE 2410 is a limited assurance engagement. We perform procedures, primarily consisting of making inquiries of management and other within the entity, as appropriate, and applying analytical procedures, and evaluate the evidence obtained. The procedures performed in a review are substantially less than and differ in nature from those performed in an audit conducted in accordance with International Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated financial statements of Stenprop Limited for the six months ended 30 September 2019 are not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*, and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee.

Funds totalling £4.9 million were restricted at 30 September 2019 (31 March 2019: £8.7 million).

# Notes to the condensed consolidated interim financial statements

## 1. Basis of preparation

The annual financial statements of the Group are prepared in accordance with International Financial Reporting Standards ('IFRS') as issued by the International Accounting Standards Board ('IASB'). These reviewed condensed consolidated interim financial statements for the six months ended 30 September 2019 have been prepared in accordance with IAS 34 'Interim Financial Reporting', the JSE Listings Requirements, the Disclosure and Transparency Rules of the UK's FCA and applicable Guernsey law.

These financial statements have been prepared by, and are the responsibility of, the directors of Stenprop.

The accounting policies and methods of computation are consistent with those applied in the preparation of the annual financial statements for the year ended 31 March 2019 which were audited and reported on by the Group's external auditor, except for the new standards adopted during the period. The consolidated annual financial statements for the year ended 31 March 2019 are available on the Company's website: [stenprop.com](http://stenprop.com).

The consolidated financial statements are presented in GBP (Pounds Sterling).

### Going concern

At the date of signing these condensed consolidated financial statements, the Group has positive operating cash flow forecasts and positive net assets. Management has reviewed the Group's cash flow forecasts for the 18 months to 31 March 2021 and, in light of this review and the current financial position, they are satisfied that the Company and the Group have access to adequate resources to meet the obligations and continue in operational existence for the foreseeable future, and specifically the 12 months subsequent to the signing of these financial statements.

The directors believe that it is therefore appropriate to prepare the accounts on a going concern basis.

### Adoption of new and revised standards

In the current period, the following effective new and revised Standards and Interpretations have been adopted. Their adoption has not had a material impact on the disclosures or the amounts reported in these interim financial statements.

- IFRS 16 Leases (effective 1 January 2019)

No other standards or interpretations not yet effective are expected to have a material impact on the financial statements of the Group.

#### *Impact assessment of adopting new accounting standards*

IFRS 16: Leases. This standard does not impact the Group's financial position as a lessor or the Group's rental income from its investment properties. The standard requires lessees to recognise a right-of-use asset and related lease liability representing the obligation to make lease payments. Having reviewed the Group's operating leases, the most significant is the lease of office space at 180 Great Portland Street, London. The Group's new right-of-use assets and corresponding lease liabilities recognised, leads to a £126,000 net liability on the statement of financial position with an immaterial impact on the statement of comprehensive income.

The lease terms of leasehold investment properties were reviewed and determined that the present value of future minimum lease payments of ground rent is de minimis.

## 1. Basis of preparation continued

### Critical Accounting Judgements and key sources of estimation uncertainty

The preparation of condensed consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the Group's accounting policies. Although the estimates are based on management's best knowledge of the amount, events or actions, actual results may ultimately differ from those estimates.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

#### *Significant estimates*

##### *Investment properties*

The Group's investment properties are stated at estimated fair value, determined by directors, based on an independent external appraisal. The valuation of the Group's property portfolio is inherently subjective due to a number of factors including the individual nature of each property, its location and the expectation of future rentals. As a result, the valuations placed on the property portfolio are subject to a degree of uncertainty and are made on the basis of assumptions that may not prove to be accurate particularly in years of volatility or low transaction flow in the market. The estimated market value may differ from the price at which the Group's assets could be sold at a particular time, since actual selling prices are negotiated between willing buyers and sellers. As a result, if the assumptions prove to be false, actual results of operations and realisation of net assets could differ from the estimates set forth in these financial statements, and the difference could be significant.

##### *Deferred tax assets and liabilities*

Tax liabilities are recognised when it is considered probable that there will be a future outflow of funds to a taxing authority. In such cases, provision is made for the amount that is expected to be settled, where this can be reasonably estimated. This requires the application of judgement as to the ultimate outcome, which can change over time depending on facts and circumstances. A change in estimate of the likelihood of a future outflow and/or in the expected amount to be settled would be recognised in income in the period in which the change occurs. Deferred tax assets are recognised only to the extent it is considered probable that those assets will be recoverable. This involves an assessment of when those assets are likely to reverse, and a judgement as to whether or not there will be sufficient taxable profits available to offset the assets when they do reverse. This requires assumptions regarding future profitability and is therefore inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognised in respect of deferred tax assets as well as in the amounts recognised in income in the period in which the change occurs.

#### *Significant judgements*

##### *Assets held for sale*

The directors consider only three of the Group's properties (Lugano in the Swiss portfolio, Bleichenhof in the German portfolio and Grimsby in the non-MLI UK portfolio) to meet the criteria defined in IFRS 5: Assets held for sale and discontinued operations. In the case of the one remaining Swiss property at Lugano, the directors consider the exceptions permitted by IFRS 5:9 to apply in respect to the one-year requirement within which a sale should complete and Stenprop is committed to the disposal of the asset in line with its strategy to exit the Swiss market. Accordingly, Stenprop has disclosed the asset as held for sale. The fair value of these properties has been determined by the directors, based on an independent external appraisal.

# Notes to the condensed consolidated interim financial statements

## 2. Operating segments

The Group is focused on real estate investment in well-developed, large economies with established real estate markets. The investment portfolio is geographically diversified across the United Kingdom, Germany and Switzerland, with a further sub-division within the UK between multi-let industrial ('MLI') and non-MLI. Each segment derives its revenue from the rental of investment properties in the respective geographical regions.

Relevant financial information is set out below:

As at 30 September 2019, the Company held 15,830,040 treasury shares (2018: 11,662,469 and 31 March 2019: 16,028,050).

<sup>1</sup> The European Public Real Estate Association (EPRA) issued Best Practices Policy Recommendations in November 2016, which provide guidelines for performance measures relevant to real estate companies. Their recommended reporting standards are widely applied across this market, aiming to bring consistency and transparency to the sector. The EPRA earnings measure is intended to show the level of recurring earnings from core operational activities with the purpose of highlighting the Group's underlying operating results from its property rental business and an indication of the extent to which current dividend payments are supported by earnings. The measure excludes unrealised changes in the value of investment properties, gains or losses on the disposal of properties and other items that do not provide an accurate picture of the Group's underlying operational performance. The measure is considered to accurately capture the long-term strategy of the Group, and is an indication of the sustainability of dividend payments.

# Notes to the condensed consolidated interim financial statements

## 5. Earnings per ordinary share continued

### Straight-line unwind of purchased swaps

An adjustment was made to the EPRA earnings attributable to shareholders relating to the straight-line unwind of the value as at 1 April 2014 of the swap contracts in the property companies acquired. When the property companies were acquired by Stenprop with effect from 1 April 2014, it also acquired the bank loans and swap contracts which were in place within these property companies. As a result, Stenprop took over loans with higher swap interest rates than would have been the case had new loans and swaps been put in place at 1 April 2014. To compensate for this, the value of the swap break costs was calculated at 1 April 2014 and the purchase consideration for the property companies was reduced accordingly to reflect this liability.

### Costs associated with Group Listing and REIT conversion

A further adjustment was made to the EPRA earnings attributable to shareholders relating to the costs associated with converting to REIT status and the listing on the Special Funds Segment of the London Stock Exchange. Both costs are specific to non-recurring activities and are not relevant to the underlying net income performance of the Group.

There were no changes made to the number of authorised shares of the Company during the period under review. Stenprop Limited has one class of share. All shares rank equally and are fully paid.

The Company has 298,775,175 (31 March 2019: 298,775,175) ordinary shares in issue at the balance sheet date.

On 5 June 2019, the Company announced a final dividend of 3.375 pence per share in respect of the six months to 31 March 2019. On 15 August 2019, the Company announced a take-up of the scrip dividend representing 0.83% of the issued share capital and 2,491,772 shares were subsequently issued from treasury shares on 16 August 2019.

As at 30 September 2019, the Company held 15,830,040 treasury shares (31 March 2019: 16,028,050). In the period the shareholders were offered the option to receive either a scrip dividend by way of an issue of Stenprop treasury shares, or a cash dividend. Given the Company's share price, which is at a discount relative to NAV, the directors matched the scrip alternative through share purchases to mitigate the dilutive effect that would otherwise have occurred through the issuance of new ordinary shares. During the period 17 July 2019 to 8 August 2019 the Company repurchased 2,491,772 shares at an average price of £1.089 per share. In the period to 30 September 2019, a total of 198,010 shares were issued from Treasury shares in respect of the Deferred Share Bonus Plan.

## 8. Investment property

The consolidated fair value of investment properties at 30 September 2019 was £465.9 million (31 March 2019: £562.8 million). This excludes an amount of £152.8 million (31 March 2019: £16.2 million) for properties which have been classified as assets held for sale, including the remaining Swiss asset at Lugano, the German Bleichenhof asset and the UK non-MLI Davemount property at Grimsby. The carrying amount of investment property is the fair value of the property as determined by registered independent appraisers having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued ('valuers').

Other than the valuation of the remaining Swiss property, for which a directors' valuation has been adopted, the fair value of each of the properties as at 30 September 2019 was assessed by the valuers in accordance with the Royal Institution of Chartered Surveyors ('RICS') standards and IFRS 13. Valuers are qualified for purposes of providing valuations in accordance with the 'Appraisal and Valuation Manual' published by RICS. Where a sale and purchase agreement has been signed as at the Statement of Financial Position date, the fair value is taken as the sales price less expected associated disposal costs.

The valuations performed by the independent external valuers are reviewed internally by senior management. This includes discussions of the assumptions used by the external valuers, as well as a review of the resulting valuations.

Discussions regarding the valuation process and results are held between senior management and the external valuers on a bi-annual basis. The audit committee reviews the valuation results and, provided the committee is satisfied with the results, recommends them to the board for approval.

The valuation techniques used are consistent with IFRS 13 and use significant 'unobservable' inputs. Investment properties are all at level 3 in the fair value hierarchy and valuations represent the highest and best use of the properties. There have been no changes in valuation techniques since year end.

# Notes to the condensed consolidated interim financial statements

## 8. Investment property continued

There are interrelationships between all these unobservable inputs as they are determined by market conditions. An increase in more than one unobservable input would magnify the impact on the valuation. The impact on the valuation would be mitigated by the interrelationship of two unobservable inputs moving in the opposite directions, e.g. an increase in rent may be offset by an increase in yield, resulting in no net impact on the valuation. Expected vacancy rates may impact the yield with higher vacancy rates resulting in higher yield. All revenue is derived from the underlying tenancies given on the investment properties.

With the exception of 13 recently acquired MLI properties, all investment properties are mortgaged, details of which can be seen in note 11. As at the date of signing this report, there are no restrictions on the realisability of any of the underlying investment properties, nor on the remittance of income and disposal proceeds.

The key unobservable inputs used in the valuation of the Group's investment properties at 30 September 2019 are detailed in the table below:

| Combined Portfolio<br>(including share of jointly<br>controlled entities) | Market value<br>30 September<br>2019<br>(£ million) | Portfolio<br>by market<br>value<br>(%) | Properties<br>(number) | Area<br>(sq m) | Annualised<br>gross rental<br>income<br>(£ million) | Net initial<br>yield<br>(Weighted<br>average)<br>(%) | Voids<br>by area<br>(%) |

## 9. Investment in joint ventures

Details of the Group's joint ventures at the end of the reporting period are as follows:

| Name                         | Place of incorporation | Principal activity | % equity owned by subsidiary |
|------------------------------|------------------------|--------------------|------------------------------|
| <b>Luxembourg</b>            |                        |                    |                              |
| ElySION S.A.                 | Luxembourg             | Holding company    | 50.00                        |
| ElySION Braunschweig S.a.r.l | Luxembourg             | Property company   | 50.00                        |
| ElySION Dessau S.a.r.l       | Luxembourg             | Property company   | 50.00                        |
| ElySION Kappeln S.a.r.l      | Luxembourg             | Property company   | 50.00                        |
| ElySION Winzlar S.a.r.l      | Luxembourg             | Property company   | 50.00                        |
| <b>Guernsey</b>              |                        |                    |                              |
| Stenpark Management Limited  | Guernsey               | Management company | 50.00                        |
| <b>Republic of Ireland</b>   |                        |                    |                              |
| Ardale Industrials Limited   | Republic of Ireland    | Management company | 50.00                        |

### ElySION S.A

Stenprop owns 100% of the shares and shareholder loans in Bernina Property Holdings Limited ('Bernina'). Bernina in turn owns 50% of the issued share capital and 100% of the shareholder loans issued to ElySION S.A., a company incorporated in Luxembourg which is the beneficial owner of the care home portfolio. The remaining 50% of ElySION S.A. is owned by a joint venture partner which manages the portfolio. It has previously been determined that the Group does not have control of ElySION S.A. and does not consolidate its results or net assets. However, the shareholder loans have attracted a 10% compounded interest rate since inception in 2007. The outstanding shareholder loan, which is wholly owned by Stenprop, has been valued at the recoverable balance which is deemed equal to the net assets of the joint venture excluding the shareholder loan thereby representing 100% of the economic interest in the structure.

Summarised consolidated financial information in respect of the Group's joint ventures is set out below. Where applicable, this represents the consolidated results of the respective holding companies.

## 10. Assets held for sale and discontinued operations

At 30 September 2019, management consider just three properties (Lugano in the Swiss portfolio, Bleichenhof in the German portfolio and the Davemount property at Grimsby in the non-MLI UK portfolio) to meet the conditions relating to assets held for sale, as per IFRS 5: Non-current Assets Held for Sale. The properties are expected to be disposed of during the next 12 months. The sale of Lugano, which is valued at 30 September 2019 at CHF21 million (£17.1 million) may not complete within 12 months. However, Stenprop is committed to the disposal of the asset in line with its strategy to exit the Swiss market. Accordingly, Stenprop has disclosed the asset as held for sale. Other than the valuation of Lugano, for which a directors' valuation has been adopted, the fair value of all assets held for sale have been determined by an external valuer, Jones Lang LaSalle. Where a sale and purchase agreement has been signed as at the Statement of Financial Position date, the fair value is taken as the sales price less expected associated disposal costs.

The fair value of these properties, and their comparatives are shown in the table below:

|  | <b>30 September<br/>2019<br/>£'000</b> | <b>31 March<br/>2019<br/>£'000</b> |

### Disposals

On 21 June 2019, the Group disposed of its Hemel Hempstead property in Davemount Properties Limited for £1.9 million. On 19 August 2019, the Group disposed of its Walsall property in Davemount Properties Limited for £1.7 million.

### Prior year disposals

On 19 July 2018, the Group disposed of seven properties in Switzerland, two of which were disposed of as subsidiaries, with the remaining five disposed of as assets. Of the five assets sold, three were located in Baar, Vevey and Montreux and were owned by Kantone Holdings Limited while Chiasso and Sissach were owned by Bruce Properties Sarl and Clint Properties Sarl respectively. The gross purchase consideration of CHF103.65 million (£81.6 million) compared with the valuation of these seven properties at 31 March 2018 of CHF103.23 million (£77.2 million).

As part of the agreements entered into for the sale of the seven Swiss properties, all of which were sold to the same buyer, Stenprop provided a guarantee for obligations and liabilities of each of the selling entities. The maximum amount of the guarantee is CHF6.0 million, which lasts until all obligations under the sale agreements have been fulfilled, with a backstop date of 31 July 2028. As at the date of signing these accounts, there had not been any claim under the guarantee.

## 14. Financial risk management

The fair value measurement for the Group's financial assets and financial liabilities are categorised into different levels in the fair value hierarchy. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair values of the Group's secured loan facilities and derivative financial instruments are included in Level 2.

Level 3: unobservable inputs for the asset or liability. The fair value of the Group's investment properties is included in Level 3. Valuations represent the highest and best use of the properties.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the transfer has occurred. There were no transfers between levels for the period ended 30 September 2019.

The fair value of all other financial assets and liabilities is not materially different from their carrying value in the financial statements.

The Group's financial risk management objectives and policies are consistent with those disclosed in the audited consolidated financial statements for the year ended 31 March 2019.

## 15. Related party transactions

Parties are considered related if one party has control, joint control or significant influence over the other party in making financial and operating decisions. Transactions with related parties are made on terms equivalent to those that prevail in an arm's length transaction.

There have been no material changes in the related party transactions described in the Annual Report for the year ended 31 March 2019. Transactions with key management personnel are materially consistent with those described in note 8 of the 2019 Annual Report, including details of the bonuses approved on 5 June 2019 in respect of the year ended 31 March 2019.

## 16. Events after the reporting period

On 14 October 2019, Stenprop acquired an industrial estate known as Western Campus in Glasgow for £4.6 million.

On 21 November 2019, the directors declared an interim dividend of 3.375 pence per share (2018: 3.375 pence per share). The directors intend to offer shareholders the option to receive all or part of their dividend entitlement by way of a scrip issue of Stenprop treasury shares or in cash. An announcement containing details of the dividend, the timetable and the scrip dividend terms is anticipated to be made on 19 December 2019. It is expected that shares will commence trading ex-dividend on 22 January 2020 on the JSE and on 23 January 2020 on the LSE. The record date for the dividend is expected to be 24 January 2020 and the dividend payment date 14 February 2020.
